Soft Skills

Problem Solving

Shubham Kishor Agdari

Frontend Developer(React)

Professional Summary

Dynamic Frontend Developer with expertise in React.js and a solid understanding of JavaScript ecosystems. Proven strengths in responsive design, performance optimization, and API integration. Effective in collaborating with diverse teams and leveraging Generative AI for quick adaptation to new technologies.

Experience

Capgemini | Senior Analys   March 2023–present
- Experienced Remote Desktop Support Specialist with a strong background in IT troubleshooting.
- Proficient in diagnosing and resolving technical issues remotely, ensuring seamless operations for end-users. Resolving customers' issues by taking remote sessions and creating a KB for the new issues.
- Determining the root cause of repetitive issues faced by users.

Capgemini | Analyst   August 2021 - March 2023
- Providing technical assistance and troubleshooting for applications running on the Windows platform.
- Ensuring the smooth functioning, addressing user queries, and resolving issues related to performance.
- Collaborating with cross-functional teams to optimize configurations and enhance overall application performance, contributing to the seamless operation of critical business systems.

Projects

Alcazar Website   Live Demo Link   Github Repo Link

HTML5   CSS3   JavaScript

- Designed and developed a dynamic user-specific travel website.

Effective Communication

Teamwork   Adaptability

Time Management

- Implemented an engaging home page and interactive exploration section for destinations.
- Created a user-friendly booking interface and a wishlist feature.
- Showcased proficiency in HTML, CSS, JavaScript, and front-end technologies.
- Focused on creating user-centric digital experiences.

Honey Store   Live Demo Link   Github Repo Link

React   Express.js   CSS3

- Collaborated with designers and backend developers to understand project requirements and translate them into functional user interfaces.
- Developed high-quality, reusable, and scalable code using React.js to build a responsive e-commerce platform.
- Implemented responsive design to ensure optimal performance across various devices and browsers.
- Integrated frontend components with Express.js backend APIs to facilitate user authentication and dynamic data fetching.
- Optimized the web application for speed and performance, improving load times and user satisfaction.
- Conducted thorough testing and debugging, ensuring the reliability and stability of the developed features.
- Employed CSS3 for design customization, creating an engaging and visually appealing online store.
- Worked in a team environment and collaborated closely to enhance development workflows and code quality.
